Enter the dates for each vaccine your child	Immunization Form		Birthdate			
has received to date	Immunizations required for child care, early childhood programs, and school.					
	Birth to 6 months	12 -24 months	At Kindergarten	At 7th grade At 12th grade		
Vaccine						
Hepatitis B						
Diphtheria, Tetanus, Pertussis (DTaP, DT, Td)						
Haemophilus influenzae type b (Hib)						
Pneumococcal (PCV)						
Polio						
Measles, Mumps, Rubella (MMR)						
Chickenpox (varicella)						
Hepatitis A						
Tetanus, Diphtheria, Pertussis (Tdap)						
Meningococcal (MCV4)						

Minnesota law requires children enrolled in child care, early childhood education, or school to be immunized against certain diseases, unless the child is medically or non-medically exempt.

Instructions for parent or guardian:

- 1. Fill out the dates in chronological order even if your child received a vaccine outside of the age/grade category that the box is in. Depending on the age of your child, they may not have received all vaccines; some boxes will be blank.
 - If you have a copy of your child's immunization history, you can attach a copy of it instead of completing the front of this form.
 - Your doctor or clinic can provide a copy of your child's immunization history. If you are missing or need information about your child's immunization history, talk to your doctor or call the Minnesota Immunization Information Connection (MIIC) at 651-201-3980 or 800-657-3970.
- 2. Sign or get the signatures needed for the back of this form.
 - Document medical and/or non-medical exemptions in section 1.
 - Verify history of chickenpox (varicella) disease in section 2.
 - Provide consent to share immunization information (optional) in section 3.

Instructions: Complete section 1 to d section 2 to verify history of varicella immunization information.			•		
1. Document a medical and/or non-relace an X in the box to indicate a me			e are exemptions to more than one vaccine, mark e	each vaccine with an X.	
Vaccine	Medical Exemption	Non-Medical Exemption	B. Non-medical exemption: A child is not required to have an immunization that is agains their parent or guardian's beliefs. However, choosing not to vaccinate may put the health		
Diphtheria, Tetanus, and Pertussis			or life of your child or others they come in contact with at risk. Unvaccinated children who are exposed to a vaccine-preventable disease may be required to stay home from child
