MINNESOTA JCC EARLY CHILDHOOD CENTER

HEBREW LANGUAGE PROGRAM

BEGINNING SEPTEMBER 3, 2025 • AGES 3-5 YEARS

The Minnesota JCC Early Childhood Center is excited to announce the launch of a new, innovative Hebrew Language Program for children ages 3 to 5. The program blends language learning with joyful, play-based exploration to provide an immersive introduction to Hebrew and Israeli culture within a nurturing and dynamic pre-school setting—a unique early childhood offering in Minnesota.

Throughout the day, children engage with Hebrew through routines, instructions, songs, and activities.

Daily schedules include:

Choice Play • Circle Time • Music • Art • Large Muscle Play • Stories • Swimming • and more!

Studies show that learning a second language offers many advantages. Bilingual children often develop strong cognitive skills, including enhanced critical thinking, problem-solving, and decision-making abilities.
